

App\Controllers\Api  
\ApiGetController\getFungusById

App\Controllers\Api  
\ApiGetController\getRandom  
Fungus

App\Controllers\Api  
\ApiGetController\increment  
FungiViews

```
graph LR; A["App\Controllers\Api<br>\ApiGetController\getFungusById"] --> C["App\Controllers\Api<br>\ApiGetController\increment<br>FungiViews"]; B["App\Controllers\Api<br>\ApiGetController\getRandom<br>Fungus"] --> C;
```

The diagram illustrates a dependency or relationship between three API endpoints. On the left, there are two white rectangular boxes. The top box contains the text 'App\Controllers\Api' followed by '\ApiGetController\getFungusById' on the next line. The bottom box contains 'App\Controllers\Api' followed by '\ApiGetController\getRandom' and 'Fungus' on the next line. On the right, there is a gray rectangular box containing 'App\Controllers\Api' followed by '\ApiGetController\increment' and 'FungiViews' on the next line. Two blue arrows point from the right side of the two white boxes to the left side of the gray box, indicating that both endpoints on the left depend on or interact with the endpoint on the right.
