

App\Controllers\Api
\ApiPostController\handleLogin

App\Controllers\Api
\ApiPostController\registerUser

App\Controllers\Api
\ApiPostController\validate
RequiredFields

```
graph LR; A["App\Controllers\Api<br>\ApiPostController\handleLogin"] --> C["App\Controllers\Api<br>\ApiPostController\validate<br>RequiredFields"]; B["App\Controllers\Api<br>\ApiPostController\registerUser"] --> C;
```

The diagram illustrates a dependency or relationship between three code components. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'App\Controllers\Api' followed by '\ApiPostController\handleLogin' on the next line. The bottom box contains 'App\Controllers\Api' followed by '\ApiPostController\registerUser' on the next line. On the right, there is a gray rectangular box with a black border. It contains the text 'App\Controllers\Api' followed by '\ApiPostController\validate' on the next line, and 'RequiredFields' on the third line. Two blue arrows point from the right side of the top white box to the left side of the gray box, and from the right side of the bottom white box to the left side of the gray box.
