

App\Controllers\Api
\ApiGetController\getFungusById

App\Controllers\Api
\ApiGetController\getRandom
Fungus

App\Controllers\Api
\ApiGetController\increment
FungiViews

```
graph LR; A["App\Controllers\Api<br>\ApiGetController\getFungusById"] --> C["App\Controllers\Api<br>\ApiGetController\increment<br>FungiViews"]; B["App\Controllers\Api<br>\ApiGetController\getRandom<br>Fungus"] --> C;
```

The diagram illustrates a dependency or mapping relationship. On the left, there are two white rectangular boxes. The top box contains the text 'App\Controllers\Api' followed by '\ApiGetController\getFungusById' on the next line. The bottom box contains 'App\Controllers\Api' followed by '\ApiGetController\getRandom' and 'Fungus' on the next line. On the right, there is a gray rectangular box containing 'App\Controllers\Api' followed by '\ApiGetController\increment' and 'FungiViews' on the next line. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both source methods or controllers are associated with or mapped to the target method or controller.
