

App\Controllers\StatsController
\getFungiStats

App\Controllers\StatsController
\getGeneralStats

App\Controllers\StatsController
\getEdibilityStats

```
graph LR; A["App\Controllers\StatsController<br>\getFungiStats"] --> C["App\Controllers\StatsController<br>\getEdibilityStats"]; B["App\Controllers\StatsController<br>\getGeneralStats"] --> C;
```

The diagram illustrates a mapping or inheritance relationship. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'App\Controllers\StatsController' followed by '\getFungiStats' on a new line. The bottom box contains 'App\Controllers\StatsController' followed by '\getGeneralStats' on a new line. On the right, there is a single gray rectangular box with a black border containing the text 'App\Controllers\StatsController' followed by '\getEdibilityStats' on a new line. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that the methods from the two source controllers are being mapped or inherited by the target controller.
