

App\Controllers\Api
\ApiGetController\getFungusById

App\Controllers\Api
\ApiGetController\getRandom
Fungus

App\Controllers\Api
\ApiGetController\increment
FungiViews

```
graph LR; A["App\Controllers\Api<br>\ApiGetController\getFungusById"] --> C["App\Controllers\Api<br>\ApiGetController\increment<br>FungiViews"]; B["App\Controllers\Api<br>\ApiGetController\getRandom<br>Fungus"] --> C;
```

The diagram illustrates a dependency or mapping relationship. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'App\Controllers\Api' followed by '\ApiGetController\getFungusById' on the next line. The bottom box contains 'App\Controllers\Api' followed by '\ApiGetController\getRandom' and 'Fungus' on the next line. On the right, there is a gray rectangular box with a black border containing the text 'App\Controllers\Api' followed by '\ApiGetController\increment' and 'FungiViews' on the next line. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating that both source methods or endpoints map to the same target method or endpoint.
